February 2021

## Matzke Mission

*These hotel 'suite' is 'home' during our 21 day quarantine.*

It was January 7th when we learned that we had been given permission by the Solomon Islands Office of the Prime Minister to re-enter the country. At the same time we learned that the next repatriation flight would be on February 7th from Auckland, New Zealand.

We had no idea when the next flight would be, so we decided to put all our efforts into trying to get everything done so we could make that flight! With the help of friends, we managed to get our house packed up and into storage, booked tickets to New Zealand, made arrangements to rent our house and a myriad of other jobs. It was overwhelming, but our friends helped make it possible!

And we are grateful to those who contributed to the special launch fund which was established to cover the extra expenses related to our return to the Solomons.

It's great to be back in the Solomons even though it means we are in a 3 week quarantine. Actually, after all the craziness of getting ready to leave, sitting in quarantine is not the end of the world! You can read more about our travel and quarantine experiences on our blog: [www.matzkemission.com](http://www.matzkemission.com)

### What's Next?

The Covid test from our arrival on Sunday night has come back negative. This is the first of four Covid tests we will need to undergo while we are in quarantine.

We are looking forward to being released at the end of February, when we will get settled in our house and back into our ministry. We are already encouraged by conversations with our Solomon Islands friends/colleagues about new opportunities.
